PROFESSIONAL SUMMARY

Full-Stack Developer with 3 years of professional experience building and maintaining web applications in production. Specialized in **PHP, Laravel and PostgreSQL** on the backend of an enterprise RFID management platform used in 30+ countries, with deep hands-on work in **billing & invoicing automation** — recurring billing schedules, automated invoice generation, PDF rendering and financial data integrity. Comfortable across a hybrid legacy (Zend Framework 1) + modern (Laravel 12) codebase, writing tested, reviewable code (Pest/PHPUnit). Also builds products with React, Next.js and Flutter.

EXPERIENCE

Full Stack Developer

May 2023 – Present

USTEK RFID — Istanbul, Turkey · [ustek-rfid.com](#)

- Developed and maintained features for an RFID-based laundry management platform deployed in **30+ countries**, serving commercial laundries, hotels and healthcare facilities.
- Designed and shipped **billing & invoicing automation**: recurring billing-run schedules with monthly / weekly / bi-weekly cadences and a per-customer scheduled invoicing engine that issues numbered PDF invoices unattended (Laravel 12, PostgreSQL, queued jobs).
- Built and extended RESTful APIs and web interfaces (PHP 8, Laravel, Zend Framework 1, jQuery, Bootstrap) for real-time RFID inventory tracking, automated billing and logistics modules.
- Implemented garment lifecycle features — warehouse monitoring, uniform rental management, scrub dispensing — that directly improved client operational efficiency.
- Improved billing correctness and stability: diagnosed and fixed silent under-billing and timezone/date-shift defects in production invoice flows, and covered changes with automated test suites (Pest) and per-change coverage reporting.
- Collaborated with hardware integration teams to keep reliable data flow between UHF RFID terminals, readers and the web platform.

PROJECTS

Every project below is deployed and can be tried with a demo account — [mkado.dev](#).

Real Estate Platform (BestTrend-SY)

Jul – Oct 2025

Laravel 12, React, TypeScript, Vite, Tailwind CSS (shadcn/ui) · live: [besttrend.mkado.dev](#) · admin: [besttrend-api.mkado.dev](#)

- Full-stack real estate platform for the Syrian market: listing & publishing, advanced search/filtering, favorites, saved searches, analytics dashboards.
- Laravel 12 REST API with Sanctum authentication and Bunny Storage CDN image hosting; React + TypeScript frontend with multi-language support (Arabic RTL, English, Kurdish).

Invoice Management System

2025

PHP 8.2, MySQL, TCPDF, PHPMailer, Bootstrap · live: [invoice.mkado.dev](#)

- Business invoicing application with PDF generation, e-mail distribution and payment status tracking (outstanding / paid / overdue); automatic tax & subtotal calculations, multi-line items, responsive UI.

Find Job with AI

2025

PHP, AI/LLM integration · live: [findjob.mkado.dev](#)

- Job search platform that uses AI to match candidates with relevant job opportunities.

Full-Featured POS System

Feb – May 2024

Laravel, PostgreSQL, jQuery, AdminLTE · live: [pos.mkado.dev](#)

- Point-of-sale system for retail: products, categories, users and transactions via an AdminLTE dashboard.

SKILLS

Backend	PHP 8, Laravel, Zend Framework 1, REST API design, OOP, queued jobs, Pest/PHPUnit testing
Databases	PostgreSQL, MySQL, SQLite, Firebase (Firestore, Auth, Cloud Messaging)
Frontend	React, Next.js, TypeScript, JavaScript, HTML, CSS, SASS, Bootstrap, AJAX, jQuery
Mobile	Flutter (Dart), Bloc state management
Cloud & DevOps	Azure, AWS, Vercel, Git
Domain	Billing & invoicing systems, RFID systems, n8n automation, i18n (gettext), PDF generation (TCPDF)

EDUCATION

B.Sc. Computer Engineering

2019 – 2024

Burdur Mehmet Akif Ersoy University — Burdur, Turkey

LANGUAGES

Kurdish (Native) · Arabic (Native) · Turkish (Native) · English (Intermediate — strong written communication)
